

# Dip Spin Coating Machine Model DST- 600

## Machine Specifications

Model Name	DST- 600
Overall Size L x W x H	5000x3600x3200 mm
Loading Height	1300 mm
Parts loading	Autoloader
Parts unloading	By tilting the basket on the flatbed conveyor
Basket size	600 mm
Basket tilting	75 deg
Basket load carrying capacity	80- 90 kg
Spin speed	200- 500 RPM
Paint barrel	SS 304 is leakproof with a stirrer, level indicator & temperature sensor
Paint barrel with water-cooling jacket	Could be provided
Paint lifter movement	Hydraulic cylinder with LM guideways
Machine operation	Fully automatic
Operating panel	PLC with HMI
Machine power requirement	26 HP
Machine weight approx.	7500 Kg
Machine enclosure	Provided for dust free atmosphere
