

# Dip Spin Coating Machine Model DS - 200

## Machine Specifications

| Model Name                             | DST- 200                  |
|----------------------------------------|---------------------------|
| Overall size L x W x H                 | 1000 x 1000 x 1890 mm     |
| Loading height                         | 800 mm                    |
| Parts loading                          | Manual                    |
| Parts unloading                        | Manual                    |
| Basket size                            | 8 inch (200 mm)           |
| Basket tilting                         | Not provided              |
| Basket load carrying capacity          | 5 kg                      |
| Operation                              | Manual                    |
| Spin speed                             | 200- 400 RPM              |
| Paint barrel with water-cooling jacket | N/A                       |
| Paint barrel                           | SS 304 leakproof          |
| Machine power requirement              | 2 HP                      |
| Machine weight approx                  | 230 kg. approximately     |
| Machine enclosure                      | N/A                       |
| Machine size                           | 0.8m x 0.6m x 1.6m height |
| Maximum rpm                            | 350 (programmable)        |
| Cycle time                             | 90 sec (programmable)     |
| Paint tank movement                    | Pneumatic actuation       |
